TBULULAR
carved wall tile

Tubular—for when design throws you a curve. Vertical channels carved into the surface of Tubular allow the tile to wrap a radius. Made from sound absorbing PET felt, the carved wall tile is available in a single color (9 mm) or in two-tone styles (12 mm).
**SPECS**

**PRODUCT**
Tubular carved wall tile

**CONTENT**
polyester (PET) felt
60% pre-consumer recycled

**BEVELED EDGE**
carved at a 45˚ angle
on vertical sides

**9MM TILE**

**DIMENSIONS**
11.75” W x 11.75” H x 9 mm T (small)
23.5” W x 23.5” H x 9 mm T (large)*

**FELT THICKNESS**
9 mm (base)

**12MM TILE**

**DIMENSIONS**
11.75” W x 11.75” H x 12 mm T (small)
23.5” W x 23.5” H x 12 mm T (large)*

**FELT THICKNESS**
9 mm (base) + 3 mm (top)

*Large tile carving pattern has the same scale as small tile carving pattern.

**LAYOUT**

Tubular can be tiled on a flat wall vertically, horizontally, or to suit your own creative explorations.

This tile can flex to match a cylindrical or curved surface down to 12” in diameter.
9MM FELT

TURF's Tubular carved wall tile is made with 9mm PET felt board. The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable material.

Felt thickness is 9mm +/- 0.5 mm.

Monitors and printers vary. Please request a material sample to verify felt colors.
**3MM FELT**

In addition to the 9mm boards we can also integrate 3mm PET fabric into the products through lamination. The layered material enhances not only the acoustic performance, but allows for color combinations and color reveals.

Monitors and printers vary. Please request a material sample to verify felt colors.
TECH

ACOUSTICS
ASTM C423-17: Type A Mounting

FIRE RATING
ASTM E-84 - Class A

VOC
ASTM D5116 Compliant

DETAILS

LEAD TIME
ships in four (4) weeks

INSTALLATION
Tubular is available with or without an adhesive backing, although the backing is required for installations on curved surfaces. More information is available in the carved wall tile installation instructions.

WARRANTY
three (3) years

MAINTENANCE
Vacuum occasionally to remove any particulate matter and air-borne debris or dust. Compressed air can be used to dust the material in difficult to reach areas for large assemblies. Use standard household cleaners for spot cleaning.

CUSTOM
Tubular carved wall tiles may be customized with additional layers and colors. Contact your rep for details.

ADHESIVE BACKING

A manufacturer-applied adhesive backing is required for curved walls. The pressure-activated backing instantly adheres to a variety of wall surfaces.

CONSTRUCTION ADHESIVE

Carved wall tiles without an adhesive backing should be installed on flat surfaces only with a construction-grade adhesive specified by the contractor.

ASTM C423-17: Type A Mounting. Carved wall tile NRC varies depending on field conditions and arrangement. Contact TURF for testing details.
